## MARKET SHOWED LITTLE VIGOR

Considerable Falling Off in the Volume of Dealings.

PRICES ABOUT THE SAME

SLIGHT ADVANCE IN A FEW SPE-CIAL STOCKS.

Chicago. Dec. 2.—Under the influence of lower prices for wheat at Liverpool the market opened barely steady. News available from the South American wheat relating than for some time past, the dealings showing a considerable falling off from those of yesterday. But the acute weakness with which the market closed yesterday was dissipated. The tack of explanation for that weakness was a cause of some disquiet and had a discouraging effect on large commitments. Hence the smaller dealings. There was no considerable recovery in prices outside a few special stocks, and the strength of picked stocks was regarded as a device largely to systain the rest of the market.

The southern trunk lines were the conspicuous figures today, especially the Louisyille & Nashville group. The United States Steel stocks and Amilgamated States Steel stocks and Amilgamated

effect on large commitments. Hence the smaller dealings: There was no considerable recovery in prices outside a few special stocks and the strength of picked stocks was regarded as a device largely to systain the rest of the market.

The southern trunk lines were the conspicuous figures today, especially the Louisyille & Nashville group. The United States Steel stocks and Amalgamated Copper made good recoveries from the early pressure which was quite general, and news of metal trade conditions were highly favorable. It was believed that the arbitrators' award in the question of the percentage tonnage to be allowed to the largest independent producer of steel rails had been made and that tripes of steel rails would be maintained. Movements as a whole were common place. Reports of railroad earnings for October showed the prosperous condition in the southern sections.

The Pennsylvania's net increase for October was seen to be almost wholly due to reduction of operating expenses on

The Pennsylvania's net increase for October was seen to be almost wholly due to reduction of operating expenses on lines both east and west of Pittsburg. The reported growth of business which has led to reseinding the retrenchment plans of the company with presumable expansion again of operating tost, had no reflection in the statement. Many of the dormant railroad stocks which were awakened into sudden animation yesterday and suddenly relapsed today into total neglect. Money was quotably easier today following the enormous shifting of lonas which was caused by yesterday's payment of \$24,000,000 on account of Southern Pacific preferred stock. The final transactions of the day were the most active and showed the greatest strength, the closing being firm.

Bonds were irregular. Total sales (par value), \$6,100,000.

United States bonds were unchanged on call.

Pacific Coast Grain.

San Francisco. Dec. 2.—Wheat—Easy; December 1.40 bid; May. 1.4378.
Bariey—Steady: December. 1.1014 bid; May 1.0914 asked.

Butter and Eggs.

New York, Dec. 2.—Butter—Unchanged. Eggs—Firm; western finest selected. 31 (32; western finest average best, 296.30.

Chicago, Dec. 2.—On the produce exchange, today the butter market was steady: creameries, 1002516; dairies. 18022.
Eggs—Firm at mark, 1914.021; firsts, 2414.

Metal Mairets

Metal Mairets Chicago, Dec. 2.—On the produce exhange, today the butter market was teady: creameries, 160255; dairies, 16022. Eggs-Firm at mark, 193/024; firsts, 24%. Cheese—Firm; 11012.

Coffee and Sugar.

New York. Dec. 2.—Coffee—Spot Rio, steady; No. 7 invoice, \$12; mid, steady. The market for coffee futures opened steady at a decline of 10015 points on larger Brazilian receipts and predictions that the Brazilian movement of the month of December would reach \$25,000 bags; but European markets were steady, and with the figures so far received indicating rather a larger decrease in the world's visible supply than anticipated during the last few days, the market met with some support and closed steady at a net loss of 5015 points. Sales were reported of 48,000 bags, including: December, 6,550,689; March, 7,1001,15; May. 7,30; July, 7,45; September, 7,65.

Sugar—Raw, firm; fair refining, \$44; centrifugal 96 test, 4%. Moldsses sugar, ic. Refined is firm.

Metal Maixets.

New York. Dec. 2.—The London cables reported a severe break in the tin market wet and quoted spot at £134 and futures at £133. The local market for spot tin was lower in sympathy with the foregoing weakness and closed easy at 20.25 (29.75 for spot, Copper was higher in London and £67 3s 9d for futures. Locally the market was unchanged. Lake is held at 14.57/4015.25; lecally was firm and unchanged at 4.600 4.70 in the New York. Dec. 2.—The London cables reported a severe break in the tin market was at £133. The local market for spot tin was lower in sympathy with the foregoing weakness and closed easy at 20.25 (29.55 for spot, Copper was higher in London and £67 3s 9d for futures. Locally the market was unchanged. Lake is held at 14.57/4015.25; Lead was firm and unchanged at 4.600 4.70 in the New York case, and futures at £153. The local market for spot tin was lower in sympathy with the foregoing weakness and closed easy at 20.25 (29.55 for spot, Copper was higher in London and £67 3s 9d for futures. Locally in the Market was inchanged. Lake is held at 14.57/4015.25; Lead was firm and unchanged at 4.600 4.70 in the New York market, London reported a severe break in the tin market was at £133. The local market vis at £133. The loca Metal Markets.

#### **GOOD NEWS FOR** MOTHERS AND DAUGHTERS. How often do we see a naturally beau

flow often do we see a naturally head-tiful face marred by wrinkles, black-heads, blotches and pimples, caused in the majority of cases by inactivity of the pores of the skin? These minute open-ings fail or are unable to perform their natural functions, hence the skin is

We are pleased to say that the new remedy Paracamph makes the skin soft, smooth and healthy, by creeting a natural

activity in the pores.

When applied, Paracamph opens the pores, stimulates circulation, removes congestion and any inflammation by inducing perspiration. It draws out the impurities and removes Black-heads, Pimples, Blotches, etc., in a perfectly

safe and sure manner.

If applied freely to the face twice a day, morning and night, and rubbed in well, then covered with a hot towel for two cr three minutes, it will not only cool and coothe but remove the troubles and impart a healthy peach bloom glow to the kin that will please even the most par-

Paracamph positively does not contain anything that will injure even the most delicate skin. It is a clean, safe, cooling, soothing, application that every mother and daughter can use every day in the year with pleasing and satisfactory results. A trial will convince you. So get a bottle of Paracamph to-day from your druggist, if it fails to do what we claim, go back to your druggist, the man you know, and get your money. We gnar-antee every bottle to give satisfaction. Sold only in 25c, 50c and \$1.00 bottles. —The Paracamph Company, Louisville,

Mayor of said city.

J. S. CRITCHLOW.

Recorder of said city.

Sail Lake City, Itah. November 17, 1904.

The Honorable President and Members of the City Council of Sail Lake City.

Gentlemen: Your special committee, to whom wits referred the subject of devices and the same have been prosecuted with diligence until the present time. It has proceeded upon the theory that no temporary expedient should be seleving that there was not sufficient data at hand from which the sources of supply of thus afford a permanent so the war found, upon investigation, that there was not sufficient data at hand from which the sources of supply would be from the streams thowing into the war found, upon investigation, that there was not sufficient data at hand from which the sources of supply would be from the streams thowing into the war found, upon investigation of the present time, at all the provide for this momentum guestion.

It was found, upon investigation of the present supply of the capacity of the condition of this council to make such investigation of the present time. The same provide for this momentum guestion.

It was

City canal.
is assumed that similar exchange
be effected for the waters of Mill

creek.

In addition to the waters proposed to be secured by exchange, it appears practicable to acquire the remaining one-third of the waters of Mill creek and Big Cottonwood creek by lease, which would furnish a daily supply as follows:

Mill Creek 2,500,000 gallons Big Cottonwood Creek 9,100,000 gallons

lease, whenever the necessities of the city may require.

To make the water of Mill Creek and Big Cottonwood creek available, it is proposed to construct a condult from the tail race of the Utah Light & Railway company's lowest tower station on Big Cottonwood creek to the mouth of Parley's canyon, which will discharge the water approximately 180 feet above the present intake of the Parley's canyon conduit, through which it will be conveyed to the city. This conduit has a capacity of ever 20,000,000 gallons, while there is only about one-fourth that quantity of water available from Parley's creek during the low water season.

and 120 feet above the Capitol hill reservoir.

While investigating the water question the attention of this committee has been repeatedly called to the necessity of sewering the southern and western portions of the city below the gravity sewer. The land in those parts of the city belog low, with water near the surface, it is almost impossible for the people to have propercess pools, and therefore the need of a sewer system is most imperative. This cannot be properly accomplished with the present inadequate supply of water, but, when the supply is increased, as contemplated by this report, we think that provision should be made for the construction of a sewer system for the lower part of the city, which previous estimates of the city engineer show will cost about \$150,000.00.
